

## 28BYJ-48 5V DC

28BYJ-48 5V DC

3A DC-DC Converter Adjustable Step down Power Supply Module replace LM2596s

Specification:

100% BRAND NEW!

Whole network smallest maximum 3A output.

DIY mobile power, monitor power supply, power buggies, camera power supply, car power, communications equipment supply, various right size and weight for demanding applications (such as aviation models, etc.).

Input voltage: 4.5-28V

Output Voltage: 0.8-20V (adjustable)

Output current: rated current 3A (MAX).

Switching Frequency: 1MHz

Output Ripple: less than 30mV

Efficiency: 96% (max)

Operating temperature: Industrial grade (-40 C to +85 C)

Module Properties: Non-isolated step-down module (buck)

Size: 22\*17\*4mm
